BEWITCHED BY NURSES

They Took the Legislature by Storm Yesterday.

WASHINGTON AND R. E. LEE

Bill Presented to Place Their Statues I the National Capitol-State's Share of Dispensary Profits Fixed.

Pretty trained nurses, in the garb so and secured the passage of a Lill through ment of a board by the Governor, by which a nurse must be examined before for it as enthusiastically as though it see it pass. One amendment was adopted exempting from examination any nurse

exempting from examination any nurse graduated prior to January 1, 1904.

A bill was offered in both bodies proposing to present to the United States a portrait satue in bronze of Robert E. Lee and a bronze replica of Housen's Washington. The patrons of the bill are the three Senators and five Delegates on the joint committee constituted to report upon the cost of a Lee statue. The Senator passed the House bill providing for a dispensary at Manassas, with amendment fixing the State's share of the profits at one-eighth. This proportion was practically fixed as the State's share of dispensary profits.

The Senate.

prayer, the first in the Senate for a week.

The special joint committee on Lee statue matter made its report, signed by every member of the committee. Accompanying the report is a bill embodying and carrying into effect its recommendations. The bill appropriates \$17,009, of which sum \$10,000 is to provide a bronze portrait statue of Robert Lee and the other \$7,000 to provide a bronze replica of Houdon's statue of Washington. The bill creates a Washington and Lee Statue Commission of five Senators and five members of the House to contract with Edward V. Valentine for the Lee statue and with some competent artist for the Washington replica. It is stated that it will require two or three years to complete this work, and the bill provides that the statues are not to be presented until such time as the General Assembly may by joint resolution designate.

The report of the joint committee was adopted and the accompanying bill referred to the Finance Committee.

A number of bills were reported from the Committees on Finance and Courts titles elsewhere.

The special order for 12:15, the Bland.

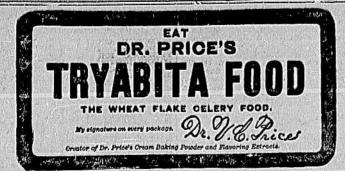

should be supported by the support of the support o

give him a chance to rob the State. He pointed to the case of South Carolina. Finally, the pending question, the amendment of Mr. Wickham, was ordered, and the amendment was lost—ayes, 10, noes, 16. On a recorded vote the amendment failed—10 to 18.

FIXED AT ONE-EIGHTH.

The amendment of Mr. Donohoe, fixing the State's share of the revenue from the Manassas dispensary at one-eighth, instead of one-fifth. The amendment was adopted on a recorded vote—18 to 10.

Messrs. Harman and Mann voted against both amendments and against the bill, stating that they were opposed to the dispensary principle in toto. When

with a bill carrying into effect its rec-ommendations. The report was received, and the bill was referred to the Finance Committee.

The House went through the formality of electing Hon. A. T. Embrey judge of the Corporation Court of Fredericks-burg.

of the Corporation Court of Fredericksburg.

INCORPORATE AMHERST.

A bill to incorporate the town of Amherst, was introduced by Delegate J. J. Owen, by request.

The bill names. Edgar Whitchead as mayor, and F. Woorlies, C. L. Scott, R. M. Cox and George W. Bearborn as members of the Town Council.

In the light of recent events the following extract from the bill is interesting. The Council shall have the authority to impose such tax as it may see fit upon the sale of wine, ardent spirits, mait liquors.

Settle, of Eappahannock, introduced a bill providing for the indexing of the records of the grants, surveys and warrants contained in the records of the order of the register of lands, and appropriating the sum of \$300.

These-were the only bills of general interest offered to-day. The House adjourned shortly after 2 o'clock.

BILLS REPORTED.

Mr. Wickham, for the Committee on Finance and Banks, reported the following bills with favorable recommendations:

To authorize the auditor to pay to James E. Phillips \$5,000 for supplies furnished by him to the general contractor for rebuilding the burned buildings at the University of Virginia,

To amend the act creating a dispensary at Martinsville.

To prevent the delivery within local option districts of Warren and Giles counlies of any liquors except in sealed packages.

Mr. McIlwaine, from the Committee for Courts of Justice, reported with a substitute the Senate bill to amend and renance section 2200 of the Code of Virginia, in relation to the certificate to be issued by cierk with license; the return to be made by person celebrating the marriage; so as to provide for penalty for violaton of said section.

Also Senate bill to unidate certificates of acknowledgment oaths, affidavits and depositions by persons styling themselves officers authorized by law to perform such acts, but whose terms of office had expired prior to the taking and certifying thereof.

From the same committee was reported with amendments Senate bill, prescribing and defining the right to an autorney's lien in certain cases.

Senate bill to amend and re-enact section 2700 of the Code of Virginia of 187 in relation to when and by whom distress made.

Sonate bill to amend and re-enact section 2700 of the Code of Virginia in relation to when and and re-enact section 2700 of the Code of Virginia in relation 2851 of the Code of Virginia in relation.

The House.

Yesterday's session of the House was marked by a clash in debate between lawyer members, who lined up on Senate bill 114, relating to the granting of new trials, which was turned down the day before. It came up on a motion to reconsider, and was advocated at length by Mr. Davis, Mr. Sipe and Mr. Hunley. The principal spenker in opposition to the bill was Mr. Allen, of Botetourt, who expressed, apparently, the views of the majority, for when the motion to reconsider was put by Speaker Ryan it was lost. A motion to dismiss the bill then prevailed.

Mr. Lassiter offered an amendment to the bill relating to trained nurses, to

MONEY FOR **EXPOSITION**

The Good Work Will Now Go Forward Very Vigorously.

A QUARTER OF A MILLION

None of the State's Appropriation Avail able Until That Sum Has Been Raised by Jamestown

Now that the bill appropriating \$200,000 to the Jamestown Exposition Company has been passed and the Exposition thereby assured beyond doubt, the work of securing subscription to the capital stock will be pushed stadily. The company will be capitalized at one million dollars, and now that the State has given as uch an impetus to the movement, it will be easier to solicit subscriptions by the people of the section contiguous to the seat of the Exposition.

Under the terms of the bill as passed, no part of the State's appropriation becomes available until after March 1, 1904, and then only after the Jamestown Company can furnish satisfactory proof that it has raised the sum of \$250,000 in actual cash. The remaining \$150,000 of the State's endowment does not become available until after March 1, 1905, and then only when the company can give satisfactory assurance that an additional \$160,000 in cash or its equivalent has been raised. Thus before the entire sum becomes available the promoters of the exposition must raise half a million dollars in actual cash.

Already upwards of four hundred thousand dollars has been promised in subscriptions, and the promoters of the great fair of 1807 are sanguine of their ability to raise a round million before the gates of the big show on historic Hampton Roads are opened to the public.

A meeting of the directory of the company will be held soon to formulate plans for furthering the Exposition movement. General Fitzhugh Lee will call the directors together probably this or next week. Meanwhile the work of solicting subscriptions will go right on, Norfolk, Portsmouth, Nowport Nows, Hampton, Narfolk county and all the points most interested having promised to do the handsome thing in the way of putting the Exposition will see on Sewell's Point or in the vicinity, and that when 1907 is ushered in there will be incking nothing to make the affair a gigantic success. It is too early now to eater upon these details. Already the cities and towns within easy touch of the seat of the pro

world, in Hampton Roads, is already reasonably assured.

Electric railways will be built throughout the historic section contiguous to the Exposition. Jamestown, Yorktown, Williamsburg, Hampton, Old Point, Great Bridge and Crancy Island, scenes made famous in the colonial or subsequent history of this country will all be easily accessible, and all those points will feel the impetus of the Exposition as a motive power in the direction of prosperity.

GRIP NOW EPIDEMIC.

THOUSANDS OF PEOPLE SUFFERING HERE AND THROUGHOUT THE STATE.

"The public should realize that the disease is contagious," says Dr. Cyrus Edson, "and guard against transmission." The country is undergoing a grip epidemic of large proportions. It is seldom that people die of grip itself, but it leaves the body weak and debilitated and ready for the germs of pneumonia, or of typhoid, or consumption, to enter the body. The nervous system is debilitated. At the first indication of the disease coming on, the person should take a laxative, such as Dr. Pierce's Pleasant Pellets, which are small, easily taken, and entirely vegetable, and therefore harmless to the constitution. Perfect rest and the ordinary home methods of hot foot-baths, etc., may be all that is required. If the cough persists, it can be alleviated and at the same time the digestion assisted and the blood purified, by the use of Dr. Pierce's Golden Medical Discovery. This has a soothing effect upon the mucous membrane, and is not like the cough mixtures often used, because it does not contain opium or other narcotic, neither does it contain alcohol.

THE NERVOUS SIDE OF THIS DISEASE

THE NERVOUS SIDE OF THIS DISEASE

THE MERVOUS SIDE OF THIS DISEASE

Is indicated by the severe pains in the back, shoulders, or back of head. For this nothing better could be used than a liniment which is the latest discovery in electro-chemical science, called Electro-Magnetine, rubbing this ammonicamphorated cream liniment thoroughly where the pain is greatest. For the fearful weakness and depression and the blues," immediately following the fever, take an alterntive extract which will give tone to the stomach, enrich the blood and build up the tissues. Dr. Pierce's Golden Medical Discovery fits this condition better than any other tonic on the market. This tonic and blood maker comes as close to Nature's way of treating disease as it is possible. Many years ago Dr. R. V. Pierce, who is consulting surgeon to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that certain herbs and roots, when made into an extract without the use of alcohol, gave the best results in restoring the stomach, blood and vital organs to a normal condition. This he well-called the "Golden Medical Discovery." It is a tissue builder better than cod liver oil, because it does not mauseate the stomach; it helps the assimilative and digestive processes and puts on healthy flesh. No alcoholic tonic could be so effective, for alcohol shrivels up the red blood corpusales.

The "Discovery" helps the stomach to assimilate or take

BLOOD WILL TELL

Courage is a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young men and women, and among all those who work indoors, who do not get enough oxygen in their lungs. There are too many while blood corpuseles, also a heart murmur, caused by thin blood passing through the heart, where, normally, a much thicker fluid should pass. This is not heart disease, for the murmur disappears when the blood regains its natural richness.

Dr. Pierce's Golden Medical Discovery has proven during over a third of a century that it is the best blood maker and stomach corrective known.

\$3,000 FORFETT

Will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signatures of the individuals volunteering the testimonials below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

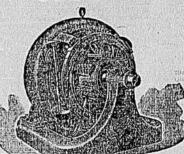

THE BEST TONIC. F. 31.38 P.C. "I feel it no more than right to give praise where it is due, and I certainly want to praise Dr. Pierco's Golden Medical Discovery," writes Prof. J. E. Tauguay, Director of the Quebec and Montreal Sadlers' and Leather Merchants' Club, 61 St.

Peter Street, Quebec:
"I had been ill for some time with La Grippe and did not
seem to regain my strength, so as to be able to take up my work
again. Took many so-called tonics, but it was just so much seem to regain my strength, so as to be able to take up my work again. Took many so-called tonics, but it was just so much money thrown away, until I began using Dr. Pierce's Golden Medical Discovery. Within a week after using that I was able to be around again, and I found that my system was entirely free from any of the bad effects which usually follow a case of La Grippe. I now keep a bottle of the 'Golden Medical Discovery' on hand, and, when I catch cold, take a few doses, which keeps me in perfect health. As a builder up of lost strength and vitality I do not believe your 'Discovery' has an equal."

without the use of alcohol, gave the best results in restoring the stomach, blood and vital organs to a normal condition. This he well-called the "Golden Medical Discovery." It is a tissue builder better than cod liver oil, because it does not nauseate the stomach; it helps the assimilative and digestive processes and puts on heafthy flesh. No alcoholic tonic could be so effective, for alcohol shrivels up the red blood corpusales.

The "Discovery" helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn, and many uncomfortable symptoms, such as heart-palpitation due to gus formed in the stomach. It is especially adapted to all diseases attended with excessive tissue waste, especially in convalescence from the various fevers, whether of a malarial or typhoid character. As a tonic and reconstructive during

stories particularly adapted for stage use. Those who have read the book will easily recognize all the leading figures in this delightful romance. "Yuba Bill," who drives the stage, is a prominent character, and there is Gray, the school master; the villainous Mexican Walters; Templeton Fake, the prairie actor and thentrical manager; Judge Beeswinger, "accordin" to statoots"; old "Bummer Smith," MTLiss' rum-sodden father; Clytle Morpher, the pride of the school, who contests with M'Liss for the favor of the schoolmaster. All these characters from the story are transplanted to the stage version and are all distinct types of the life in the Sierras during the memorable gold fever of '49. "M'Liss' is drawing crowded houses at the Bijou."

orowded houses at the Blou.

The dean of the American stage, Joseph Jefferson, will play an engagement at the Academy on Friday night. The character in which he will appear is "Rip Van Winkle," Theatre-goors need not be informed that Mr. Jefferson's visit here means a dramatic treat of unusual dimensions. They know and appreciate the inimitable quality of his art, and are aware that his age makes it possible that each visit may be his last. They understand also that of recent years his touring sensons have been limited to a few weeks, so that the places visited cannot be many. The opportunity, therefore, to once again see this splendid veteran in the famous character of "Rip" is one that will be doubtless eagerly solzed. There is groat interest in his engagement.

The one big melo-dramatic success of the season, "A Ruined Life," is booked to appear at the Bijou next week.

"A Ruined Life!—st said to possess enough stirring sensations for a dozen plays of its class; the comedy is brisk and humorous; the action of the play is rapid; the lines terse and telling; the climaxes natural, yet pulse-quickening; and altogether it possesses avery clement for a great popular success. Senically, the play is superb, its mountings being complete in every detail. The stage pictures disclose a gypsy camp on the Faglish sea coast; the racing track and paddeck at Bournemouth. England; a millionaire's palace on Fifth Avenue, New York city, and a view of Bournemouth-by-the-Sea during the resort season. The company is one of individual excellence, being headed by Miss Eisle Crescy, a talented and beautiful leading woman, for whom prominent critics have predicted a brilliant future.
